PROFESSIONAL SUMMARY

Creative Technologist and Visual Producer with 10+ years leading high-volume creative production, brand storytelling, and content systems at Amazon across India and UAE, now expanding into generative AI research, spatial UI design, and AI-enabled content workflows at Arizona State University. Hands-on across the full creative stack: studio and on-location photography and video production, motion, graphic design, and social content, combined with emerging depth in ComfyUI pipelines, LoRA model development, and multi-modal generative AI across image, video, audio, and spatial modalities. Designing AR and spatial interfaces with a systems-level approach; building AI-enabled production workflows that accelerate creative output without sacrificing craft. Fluent in Adobe Creative Suite, Figma, and AI-assisted development tools. Grounded in production reality, brand integrity, and scalable systems thinking with the technical curiosity to push into what's next.

TECHNICAL SKILLS

Languages: Python, JavaScript, Swift, C#
Frameworks & Libraries: React 18, Node.js, Flask, SwiftUI, SceneKit, RealityKit, ARKit, SpriteKit
ML & CV: PyTorch, OpenCV, YOLO (Ultralytics), ResNet-18, CLIP, SAM3, LangChain, FAISS, Hugging Face Transformers, Librosa, scikit-learn, NumPy
Generative AI: ComfyUI, Stable Diffusion (SD 1.5, SDXL), Flux, ControlNet, LoRA fine-tuning, AnimateDiff, SVD, LM Studio, Ollama, Sora, Veo, Kling, Suno, ElevenLabs
APIs & Integrations: OpenAI, Gemini, Claude, REST, WebSockets, Axios
DevOps & Tools: Git, Docker, OBS Studio
Design & Production: Adobe Creative Suite, Figma, DaVinci Resolve, Capture One, Blender
Creative Fundamentals: Composition, lighting, motion direction, typography, visual storytelling, UX design thinking, studio and on-location production.

PROFESSIONAL EXPERIENCE

Social Media Assistant | ASU *Aug 2024 – Present*

- Produce graphics, photography, and video content for institutional social media platforms across multiple channels.
- Research and apply social media trends to develop timely, engaging content that connects with student and academic audiences.
- Build and integrate AI-enabled content production workflows to accelerate creative output and improve consistency across platforms.

Graduate Teaching Assistant and Researcher – Gen AI & Interactive Systems | ASU *Aug 2025 – Present*

- Facilitated Agentic AI course alongside Prof. will.i.am and Prof. Pavan Turaga - developing curriculum, demonstrations, and resources that translated cutting-edge AI concepts into practical creative applications.
- Supported Media Editing course as GTA - assisting students with assignments, grading, and course monitoring across design principles and Adobe Creative Suite workflows.
- Conducting graduate research in multi-modal generative AI, computer vision, and real-time interactive systems - building hands-on prototypes across image, video, motion, audio, and spatial modalities.

Creative Manager | Amazon, Dubai, UAE *June 2022 – July 2024*

- Shaped and expanded brand storytelling across omnichannel formats, directing video, motion, social, and digital creative that maintained narrative consistency and tonal cohesion across India, MENA-TR markets.
- Managed end-to-end creative production from intake and brief development through creative direction, feedback cycles, and final delivery across concurrent high-priority campaigns.
- Partnered with senior marketing and product stakeholders to sharpen briefs, establish disciplined intake and

review processes, and translate strategic themes into actionable creative frameworks.

- Led, developed, and inspired multidisciplinary creative teams of 20+ - setting a high bar for narrative clarity and production quality while fostering a culture that encouraged creative bravery and growth.
- Managed team capacity across multiple simultaneous projects - bringing calm, decisive leadership in high-visibility, time-sensitive moments without compromising creative standards.
- Championed AI-enhanced creative workflows, integrating generative tools to expand storytelling possibilities and accelerate iteration while maintaining brand integrity.
- Increased studio production capacity by 50% through infrastructure expansion; standardized video workflows improving regional efficiency by 30%.

Photography Manager | Amazon, India *March 2020 – June 2022*

- Led brand storytelling across photography, video, and motion formats - defining narrative standards and visual identity systems across concurrent product launch campaigns.
- Launched Amazon Live - a live commerce video format - achieving approximately 500k views on first run through strong product storytelling, emotional clarity, and audience engagement strategy.
- Built and scaled creative training programs and adoption frameworks for 28+ FTE and freelancers - elevating the work and the people behind it across multi-region pipelines.
- Gathered requirements across stakeholder groups to launch new content formats; managed prioritized backlog of creative initiatives and iterated based on performance data.

Photographer Lead | Amazon, India *July 2019 – Feb 2020*

- Re-engineered video production pipeline end-to-end improving throughput 25% through structural changes to capture, review, and delivery stages.
- Led new production infrastructure rollouts in Singapore and Dubai - defining tooling architecture, workflow standards, and SOPs cross-region from a standing start.

Photographer | Amazon, India *October 2015 – June 2019*

- High-volume studio photography and video production; developed visual identity systems and brand assets for commercial clients.

Visual Designer & Photography Assistant | Amazon India / Aabis Design *2013 – 2015*

- Supported automated imaging hardware testing and production workflow integration.
- Developed visual identity systems and commercial catalog assets for emerging brands.

ACADEMIC & RESEARCH EXPERIENCE

Arizona State University – M.S. Media Arts and Sciences (Expected May 2026)
Concentration: Multi-modal Generative Art
Research: Generative AI pipelines, Computer Vision, real-time interactive systems

National Institute of Fashion Technology (NIFT) Bachelor of Design (2009 – 2013)
Concentration: Fashion Design.
